

Dear Verizon Wireless,

We've given you so much, but

NOW YOU'RE BREAKING OUR HEARTS.

Verizon Wireless has grown so cold.

The company continues its assault on middle-class jobs despite billions in profits and hundreds of millions paid out in executive compensation. It wants to force workers to pay thousands of dollars more for health care, and has slashed the level of benefits.

Verizon Wireless workers face staggering health care costs and no income security when they retire. Now, Verizon Wireless executives refuse to bargain a fair contract with unionized workers.

All that workers want is a decent middle-class life. **Support Verizon Wireless workers' fight for a fair contract.**

Verizon Wireless:
If you want to 'be ours,' focus more on
good jobs and less on corporate greed.
