Idearc publishes the Verizon Yellow Pages. Idearc sales, artists, customer service, and clerical employees have worked union for decades before Verizon spun off the company. Now, Idearc is trying to:

- Bust the union in New England
- Take away health care from retirees
- Commit Unfair Labor Practices
- Intimidate workers
- Interfere with union business

Idearc won't come to the table to settle these problems until we make them. Let's show Idearc that **Red Doesn't Run** and we won't let these tactics stand!

**If We Don't Stand Up For
Ourselves, No One Else Will!**
